

SHANKAR GANESH

Angular Developer

65/7, Isai Avenue Poondi Thangammal
Street, Newwashermenpet, Chennai-600081
+919092590721 shankarganesh1905@gmail.com

Career Objective

Detail-oriented, analytical, and self-driven programmer with extensive experience building user-facing applications. Efficient and knowledgeable coder with skills in HTML, CSS, PHP, and JavaScript programming languages. Coordinated and collaborative team player with attention to detail, graphic design skills, and ability to contribute to code base improvement initiatives and UX improvement projects.

Education

Bachelor Of Science In Computer Science

KCS Kasi Nadar College Of Arts & Science

3.85/4 GPA

Jun 2018 - Apr 2021

Work Experience

Angular Developer

Fiducia Score Private Limited

2021 - Till Now

- Dedicated UI/Frontend Developer with 3+ years of experience in designing and developing Single Page Applications (SPA). Worked closely with UI/UX designers to ensure accurate implementation of UI components, layouts, and visual designs.
 - Strong expertise in building web applications using Angular, JavaScript, HTML5, CSS3 (SASS/LESS), Bootstrap, JSON, and Node.js. Hands-on experience in developing Angular modules, components, services, and directives to implement business logic.
 - Experienced in implementing Angular routing for state management and smooth navigation across application modules. Integrated RESTful APIs using Angular services to enable seamless frontend-backend communication.
 - Proficient in responsive web design (RWD) using Bootstrap Grid system and media queries. Skilled in debugging and performance optimization using Chrome Developer Tools.
 - Hands-on experience with Git for version control and structured development workflows. Leveraged AI-assisted development tools such as GitHub Copilot, Windsurf, and Antigravity to improve productivity and code quality while maintaining full ownership of the codebase.
 - Actively involved in maintaining, enhancing, and optimizing existing web applications. Strong ability to meet deadlines, work under pressure, and manage multiple tasks effectively.
-

Key Projects

Angular Developer

TRSTScore – Background Verification (BGV) Application

- Worked on TRSTScore, an enterprise Background Verification (BGV) web application used for employee and candidate verification workflows.
- Developed a scalable Angular-based Single Page Application (SPA) to manage candidate profiles, verification stages, and status tracking.
- Integrated multiple RESTful APIs using Angular services for real-time data handling and workflow management.
- Built reusable UI components and feature modules to improve code maintainability and reduce duplication.
- Implemented Angular routing and state management for smooth navigation across application modules.
- Optimized UI performance and ensured responsive design across browsers and devices.
- Assisted in debugging, feature enhancements, and release support in coordination with backend and QA teams.

Technical Skills

Frontend / Web Technologies:

- HTML5, CSS3, Bootstrap, JavaScript, Angular, Angular Material, SASS, JSON

Programming Languages:

- JavaScript, C, C++

API & Web:

- RESTful APIs

Testing Tools:

- Jasmine, Karma, Chrome Developer Tools

Tools & IDEs:

- Visual Studio Code, Git

Operating Systems:

- Windows, Linux, macOS

AI-Assisted Development Tools:

- GitHub Copilot, Windsurf, Antigravity
